PLUS Legacy Report

a) Title: Pediatric Residency Project Wiki

b) Key Words: Resident Projects, Collaboration, Sustainability, Social Media

c) Learning Objectives:
1. Identify the barriers to starting and sustaining community-based projects
2. Demonstrate the potential uses of social media to create a virtual space for residents working on projects to share their projects and collaborate
3. Recognize the limitations of social media as a tool for collaboration
4. Identify the barriers in adopting a new tool

d) Project Objectives:
1. Improve the process of identifying projects for new residents
2. Improve sustainability of partnerships with community agencies
3. Minimize redundancy of projects
4. Improve coordination among people doing similar projects

e) Activities
1. Created the project wiki
2. Beta tested the wiki with pediatric residents
3. Met with project mentors and residents to raise awareness of site
4. Met with University-Community Partnerships and CTSI to discuss ways to collaborate across the UCSF campus

f) Outcomes (as of June 2012)
1. Total number of projects uploaded, 66
2. Tracking page views, 1,276 to the welcome page
3. Google Analytics starting in March 2012
4. Total number of wiki presentations:
   a. Resident and faculty conferences, 3
   b. Academic Pediatric Association Regional Meeting
   c. Grand Rounds at SFGH

g) Lessons in Implementation
1. Effective web-site design is critical for encouraging use
2. Content collection will be challenging across disciplines in the future
3. Transitioning from paper to on-line tools is challenging
4. Passwords are a large barrier to adopting new on-line tools

h) Future Directions
1. The wiki will exist as a usable entity for any users with a Myaccess account
2. The wiki will be part of the on-line tools used by UCSF pediatrics residents
